KeyMacro helps you remember what you need to remember! With KeyMacro, you can create a separate keyboard macro for just one short phrase or word. For example, you can create a keyboard macro called "Birthday" which will automatically enter the text "Happy Birthday" whenever you press the "B" key. KeyMacro is very easy to use, and works with any kind of keyboard (USB, PS2, serial, and ANSI). You can choose a layout of up

to 15 different phrases/words. It's also very easy to move up and down in the alphabet. All you have to do is type in the phrase you want and press the "next" button. And it's very easy to save the current layout as a single macro for easy recall.

Requirements: □ Pentium class or higher recommended □ VGA or Super-VGA monitor □ 15 MB (minimum) of free disk space □ Hi-Color or True-Color Screen to get the best appearance for PC DIGITAL SAFE! PC Digital Safe not only protects, but will make your life easier by saving you time. We highly recommend.

Limitations: □ 30 days trial KeyEZ  
DESCRIPTION: KeyEZ is a very popular program to get access to over a 100 of the most commonly used short phrases and words, so you can easily and quickly call your phone number, open your email, open your credit card, call your address, open a particular website, etc, when you press a key on your keyboard. The program enables you to create your

own personal shortcuts using a variety of short phrases and words that you will use on a regular basis. You can choose to assign a different key combination for each of your shortcuts, such as "Return" for opening your email, "L-8" for opening your safe deposit box, "C-3" for calling your mother, "5-J-D" for dialing your children's school, "T-H-F-4" for dialing your mobile phone, "R-9-4" for calling your girlfriend/boyfriend, etc. With KeyEZ you can easily create your own personalized keyboard shortcuts to perform a variety of tasks.

Requirements: □ Pentium class or higher recommended □ VGA or Super-VGA monitor □ 15 MB (minimum) of free disk space 2edc1e01e8

## PC Digital Safe Crack + Registration Code For PC

PC Digital Safe is a powerful, secure, fully-featured, password manager. PC Digital Safe can help you remember and keep safe all your usernames and passwords to web sites such as Facebook, ebay, google, AOL, bank accounts, credit cards, etc. At first, I tried to use another Password Manager that I

installed before, but it turned out it was not really secure. For example, it could not encrypt the passwords in my Firefox bookmarks. It was very inconvenient. In contrast, PC Digital Safe is much more secure. It is protected by a high level 256-bit AES encryption. It is totally safe. It will never show any password on the screen. - 64bit Supported - USB Supported - Support Java(8) Help on how to add new product.
